## All-School Recommended Student Supply List 2018-2019

### High School

Here teachers have provided their recommendations of supplies that they believe will best serve students from the first day throughout the school year. The following, **while not required**, represent examples of what is useful: no particular brand is required to be purchased. Families may work from this list, or they may find it convenient to purchase one [EduKit](#), an assembly of supplies that also helps raise money for the school. **Please also note:** individual teachers may request additional supplies not listed here; if this is the case, you will receive notice from these teachers directly.

**CALCULATOR NOTES:** All 10th through 12th grade students need a graphing calculator for math. Calculators in 9th grade are optional. It works best to buy any version of the TI-83 or TI-84. These models are key-for-key compatible; the main difference is a slightly faster processor and more memory in the TI-84. **DO NOT PURCHASE** a TI-89, TI-92, TI-Nspire CAS (non-CAS is OK), or anything with a QWERTY keypad. These calculators have functions that are prohibited during assessments. Students are free to buy another brand (e.g. Casio, Sharp, HP); however, teachers will be instructing based on the TI calculators and will likely be unable to provide support. **ANY OTHER ELECTRONIC DEVICES ARE FORBIDDEN.**
